

GEB Health & Wellbeing Calendar (sample)

JANUARY

Promote Digestive Health

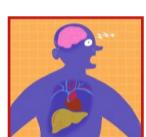

After the holidays, help employees get a healthy start by improving their digestive health. Available content: animation, infographic, email campaign.

Cervical Cancer Prevention Week

Educate your employees about age and gender-related cancer screenings and self checks. Available content: infographics, health screening guides.

FEBRUARY

Heart Health Month

In the US and UK, celebrate Heart Health Month and educate your employees about preventing common lifestyle diseases such as heart disease and stroke. Available content: animation, infographic, email campaign.

World Cancer Day

Educate your employees about age and gender-related cancer screenings and self checks. Available content: infographics, health screening guides.

MARCH

Endometriosis Awareness Month

Help your employees learn more about Endometriosis symptoms and treatment options this month. Available content: infographics, health screening guides.

APRIL

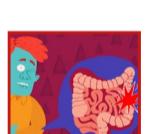

International Caesarean Awareness Month

Making informed decisions around birthing plans is still a challenge for many women around the world. Help expectant mothers make the right decision for them. Available content: animation, infographic, email campaign.

WHO World Health Day

Each year the World Health Organisation develops tools and information to support awareness of emerging health trends. Use their resources as you celebrate World Health Day. Available content: visit the WHO site for World Health Day tools.

World IBS Awareness Day

Irritable Bowel Syndrome (IBS) is a chronic condition impacting 5-10% of people worldwide. Educate your employees about IBS symptoms and treatment options. Available content: animation, infographic, email campaign.

MAY

World Hypertension Day

Help educate your employees about monitoring and managing their vital signs with our "Know Your Numbers" campaign. Available content: animation, infographic, email campaign.

JUNE

World Food Safety Day

Educate your employees about food and water safety. Available content: animation, infographic, email campaign.

World Migraine Awareness Month

Support your employees with our resources on migraine causes, symptoms, prevention and treatment options. Available content: animation, infographic, email campaign.

JULY

Infectious Disease Awareness: Dengue Fever

The rainy season is still in effect in South American countries. Help support your employees by educating them about Dengue Fever. Available content: animation, infographic, email campaign.

AUGUST

World Breastfeeding Week

Help expectant mothers make the right decision for them with information on natural and Caesarean delivery. Available content: animation, infographic, email campaign.

Immunisation Awareness Month

Educate your employees about immunisations at every stage of life using educational materials from the WHO. Available content: visit the WHO website for immunisation guidance material.

SEPTEMBER

World Heart Day

Educate your employees about preventing common lifestyle diseases such as heart disease and stroke. Available content: animation, infographic, email campaign.

OCTOBER

World Spine Day

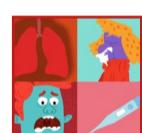

A sedentary lifestyle and poor posture can lead to back injury. Help your employees look after their spinal health. Available content: animation, infographic, email campaign

World Menopause Day

Educate your employees about symptoms and options for the journey to menopause. Available materials: animation, infographic, email campaign.

NOVEMBER

World Antimicrobial Awareness

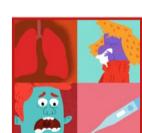

Educate your employees on how they can help to prevent antibiotic resistance. Available materials: animation, infographic, email campaign.

World COPD Awareness Day

Raise awareness of respiratory disease and prevention this month. Available materials: animation, infographic, email campaign.

DECEMBER

Preventing Colds and Flus

With many EU countries and the US entering winter, it's important to educate employees on the prevention of colds and flus. Available materials: animation, infographic, email campaign.
